Summary of the Board’s Appeal Decision

- [1] The Board has decided that it will confirm the decision appealed against. The Appellant **will not** be granted a Carpentry Licence.

The Board

- [2] The Board is a statutory body established under the Building Act.¹ Its functions include hearing appeals against certain decisions of the Registrar in accordance with subpart 2 of Part 4 of the Act.

Procedure on Appeal

- [3] Under section 335 of the Act, an appeal proceeds by way of rehearing. On hearing an appeal, the Board may confirm, reverse, or modify the decision or action appealed against. The Board may also make any other decision or take any other action that the decision maker (the Registrar) could have made. The Board cannot review any part of a decision or action not appealed against.

The Registrar’s Decision

- [4] To become licensed, an applicant person must satisfy the Registrar that they meet the applicable minimum standard for the class or classes of licence applied for. ²The minimum standard is prescribed by rule 4 of the Rules. It states:

**4 MINIMUM STANDARD OF COMPETENCE FOR EACH CLASS OF
LICENCE**

¹ Section 341 of the Act.

² Refer rule 9(1)(a) of the Rules

- (1) *The minimum standard of competence for a class of licence is meeting all of the competencies set out for that class of licence in Schedule 1.*
- (2) *In determining whether a person meets a competency, regard must be had to the extent to which the person meets the performance indicators set out for that competency in Schedule 1.*

[5] Under rule 12 of the Rules, the Registrar must make a decision on the application. The Registrar's decision to grant or decline a licence must be informed by an assessor's recommendation.³

[6] On 10 February 2026, the Registrar informed the Appellant that his application had been declined. The Appellant was informed of his right to appeal the decision.

The Appeal

[7] On 23 February 2026, the Appellant filed an appeal with the Board against the Registrar's decision.

[8] The Board was provided with the original licensing application and the assessor's report and recommendation, which noted the Appellant had failed to demonstrate any of the competencies for a Carpentry Licence.

- a. *Competency 1: Demonstrate knowledge of the regulatory environment of the building construction industry*
- b. *Competency 2: Demonstrate knowledge of current building and trade practice*
- c. *Competency 3: Carry out planning and scheduling for carpentry work*
- d. *Competency 4: Carry out carpentry work*

[9] Under section 335(4) of the Act, the Board must not review any part of a decision or action not appealed against. On that basis, and on the basis of the Report, the matters under appeal were those noted above.

[10] The burden of proof lies with the Appellant. The Appellant must provide sufficient evidence to establish on the balance of probabilities, the Registrar's decision was wrong or that a different decision should have been made. If the Registrar appears at an appeal hearing,⁴ the matter proceeds using an adversarial process.

[11] The Registrar did not seek leave to appear.

The Hearing

[12] The Appellant provided a submission with his appeal application outlining how he met the competencies to be granted a carpentry licence and the reasons why he wanted his application to be reconsidered.

³ Rules 10 and 11 of the Rules

⁴ The Registrar may seek leave to appear and be heard under clause 2.9.16(a) of the appeal procedures either in person or by legal counsel.

- [13] The Appellant has submitted fresh evidence in support of his appeal application. He has resubmitted evidence that was submitted with his application to become licensed and submitted again with his appeal application. Accompanying the evidence was a summary of his background, experience, qualifications, and how he met the competencies required to be granted a carpentry licence, as well as the reasons why he wanted his application to be reconsidered. The Appellant noted that his original application may not have fully demonstrated the extent of his experience and responsibilities. The Appellant provided an additional referee in support of his current work performance.

The Board, after consideration of the submission, has decided that the fresh evidence submitted by the Appellant will not be considered as part of the Appeal application. The fresh evidence submitted by the Appellant could have been provided in support of his original licence application.

- [14] The Board decided the Appeal on the papers.

The Purposes of the Licensing Regime

- [15] The Building (Definition of Restricted Building Work) Order 2011 (New Zealand) stipulates that design work and building work on the primary structure and external moisture-management system of a house or a small-to-medium apartment building is restricted building work. Restricted building work applies to work that is carried out or supervised under a building consent⁵.

- [16] Under section 84 of the Act:

All restricted building work must be carried out or supervised by a licensed building practitioner [who is licensed] to carry out or supervise the work.

- [17] Given the above provisions, a person who wishes to carry out or supervise restricted building work, other than as an owner builder, must be licensed.

- [18] The introduction of the licensed building practitioner regime was aimed at improving the skills and knowledge of those involved in residential construction. The following was stated as the intention to the enabling legislation⁶:

The Government's goal is a more efficient and productive sector that stands behind the quality of its work; a sector with the necessary skills and capability to build it right first time and that takes pride in its work; a sector that delivers good-quality, affordable homes and buildings and contributes to a prosperous economy; a well-informed sector that shares information and quickly identifies and corrects problems; and a sector where everyone involved in building work knows what they are accountable for and what they rely on others for.

⁵ Refer section 401B of the Act.

- [19] And, as was noted by the responsible Minister during the first reading of the legislative provisions that established it:⁷

A robust licensing scheme with a critical mass of licensed builders means consumers can have confidence that their homes will be built right first time.

- [20] Within that context, it is important that the competence of those who seek to be licensed is thoroughly assessed so as to ensure that the legislative purposes of licensing are advanced, consumers are protected, and buildings are designed and constructed in a manner that makes them safe and healthy.

Board's Conclusion and Reasoning

- [21] On the basis of the evidence received and having taken into consideration the purposes of the licensing regime, the Board has decided that it will confirm the decision or action appealed against. The Appellant **will not** be granted a Carpentry Licence.

- [22] The Board made its decision on the basis of the evidence that was before the Registrar when he made his decision, having taken into consideration the submissions filed by the Appellant.

- [23] The Board considered, when reviewing the evidence provided by the Registrar, that the Appellant was unable to answer all the regulatory knowledge questions and demonstrate knowledge of current building trade practice.

The Appellant was not aware of the contents of NZS3604, having not been exposed to it, and had no understanding of any of the building code clauses, particularly E2.

The Appellant had limited knowledge of the building consent process and could not list types of inspections that would be required nor at what stage they would be required.

The scope of the Appellants submitted projects was limited and did not cover the full scope of restricted building work.

The Appellant's referees both could not confirm the Appellant had carried out a full range of carpentry work to meet Competencies 3 and 4, as defined in the LBP Rules.

- [24] The Appellant could not demonstrate meeting all the competencies for a carpentry licence.

Board's Decision

- [25] The Appeal is dismissed and pursuant to s335(3)(a) of the Act, the Board confirms the Registrar's decision.

Costs and Publication

Costs

- [26] Under section 338(4) of the Act the Board may order any party to the appeal to pay to any other party to the appeal any or all of the costs incurred by the other party in respect of the appeal.
- [27] The Board has adopted the approach taken by the District Court to costs on appeal.
- [28] The Registrar did not seek leave to appear or take any steps in the appeal. As such, no costs order will be made.

Publication

- [29] Section 339 of the Act provides:

339 Orders as to publication of names

- (1) *On an appeal under this subpart, the appeal authority may, if in its opinion it is proper to do so, prohibit the publication of the name or particulars of the affairs of a licensed building practitioner or any other person.*
- (2) *In deciding whether to make an order under subsection (1), the appeal authority must have regard to—*
- (a) *the interests of any person (including, without limitation, the privacy of any complainant); and*
- (b) *the public interest.*
- (3) *If the appeal authority prohibits the publication of the name or particulars of the affairs of a licensed building practitioner, the Registrar must remove the name or particulars of the affairs of that licensed building practitioner from the register in relation to the matter under appeal to the extent necessary to reflect the appeal authority's prohibition on publication.*

- [30] Based on the above, the Board will not prohibit publication.

Right of Appeal

- [31] The right to appeal a Board decision of this type is provided for in section 330(2) of the Actⁱ.

Signed and dated this 18th day of September 2026.
